BOARD POLICY/PROCEDURE DEVELOPMENT

It is the intent of the Board to cause codified policies and procedures to be developed so that they promote successful and efficient functioning of the College.

The Board considers policy development one of its chief responsibilities. Procedures exist regarding the policy-development process (see Procedure 7510B). The Board shall take action after hearing the recommendations of the Policies and Procedures Committee and the President, or as otherwise provided by policy.

Changes in needs, conditions, purposes and objectives will require revisions, additions and deletions to the policies and procedures of the present and future Boards. The Board welcomes suggestions for ongoing policy and procedure development.
